6 CANADIAN INFANTRY BRIGADE GROUP

LANDING TABLE

Issued as Appendix "D" to 6 Cdn Inf Bde Operation Order No 13  
To be issued later.

NOTES

1. Vehicles loaded in LCTs are listed in this Landing Table in the order in which they are to be discharged. Sequence of loading however will be governed by Loading Diagram and is NOT the reverse of sequence of discharge.
2. The Unit detailing OC Troops is indicated by d. Units must ensure that this officer or HQU is capable of discharging efficiently the duties and responsibilities entailed.
3. The Unit detailing OC Troops will provide OC Troops with extract from Landing Table showing only the detail of craft with which he is concerned. OC Troops will also be provided with Loading Diagram of Ship or Craft concerned by 6 Cdn Inf Bde.
4. As space is at a premium and Landing Tables consequently "tight", OC Troops must ensure loading is carried out meticulously and that no vehicle is "frozen out".
5. Debarcation Sectors are as follows:

(a) LCT, LSI	-	SOUTHAMPTON
(b) LCT	-	PORTRIMOUTH
(c) Force J LST	-	SOUTHAMPTON
(d) Force I LST	-	TILBURY
(e) LCN	-	BRACKLESHAM BAY
6. Craft are listed in this Landing Table in the order from Starboard to Port in which it is hoped they will touch down in any one flight.
